Ohio Kiwanis. During the month of February clubs and Divisions should be identifying candidates for the coming year. One of the most important ways in which we leave our legacies upon our clubs, divisions, districts, and our communities is in how we invest in our future. Our succession planning is paramount to this.

Identifying emerging leaders early is so very important. By completing club elections by early spring, it allows for proper planning for the upcoming year and proper instruction and on-boarding of new club leaders. So many of the noble tasks we are engaged in within our communities cannot be completed in a single year. To ensure the long-term success of our service initiatives and to positively affect the lives of the underserved in our communities, we must have a clearly defined succession plan in place in each of our clubs.

Each club should be identifying a President-Elect to serve for the 2021-2022 year. **By filling this crucial role in the early spring, club leadership teams will have well over a year to put plans in place and to learn on the job.**

## **Kiwanis Education.**

23. Kiwanis International's first Worldwide Service Project was initiated in 1993 and formally launched in 1994. The project is designed to eliminate iodine deficiency disorders (IDD) as a world health problem. Iodine is an essential micronutrient in the human diet. About 1.5 billion people live in iodine-deficient areas of the world, and half of them are children.

## **Thought for today.**

"Your talent determines what you can do. Your motivation determines how much you're willing to do. Your attitude determines how well you do it."
